

Why choose us?

At Growing Minds, we know how important it is to find a daycare you can trust. That's why we offer convenient hours and a central location to fit your busy schedule. As a teacher-owned and operated center, we bring hands-on experience and a deep understanding of early childhood development. Our trained, professional staff is dedicated to creating a safe, nurturing environment where every child is valued and supported. Above all, we genuinely care about the well-being of your little ones—and it shows in everything we do.

About our center

Growing Minds is located at 411 Cedar Street and provides quality care for children ages 6 weeks to 5 years old. We're open Monday through Friday from 7:30 AM to 6:00 PM, with weekly tuition of \$280 for all age groups. Our center offers a warm, supportive environment with an educational, age-appropriate curriculum designed to help every child learn and grow socially, emotionally, and academically.

Our Owner & Director

JULIA SCALA

“Hello! I’m Julia Scala, the owner and director of Growing Minds Child Care Center LLC. Before jumping into child care, I spent several years teaching elementary school in local districts. I hold a Master’s degree in Teaching and have a background in child development and psychology. I’m so excited to apply my knowledge and open a childcare center of my own! My passion has always been working with children, and I’m thrilled to bring Growing Minds to the Millville community!”

Our Programs

● Our curriculum

At Growing Minds, we use a carefully curated curriculum to introduce your little one to a lifelong love of learning. Your child will learn everything they need to succeed in Pre-K and Kindergarten!

● Learning through play

Studies show that young children learn best through play! At Growing Minds, we prioritize and encourage healthy play habits through both structured and free play!

● Learning through experience

What better way for a child to learn about the world around them than to experience it themselves? At Growing Minds, we explore weekly thematic units that cover real-world content for well-rounded children!

● Infant Care

Loving and attentive infant care is crucial in the early stages of development, as it lays the foundation for emotional security, brain growth, and social skills. At Growing Minds, we provide nurturing care that supports each baby’s needs, helping them feel safe, loved, and ready to thrive.
